Final Review Task,

Please check the template URL below and you have to create the same like that,

https://www.free-css.com/assets/files/free-css-templates/preview/page293/vertex/

You have to cover the below technology in your final task

1) HTML
2) CSS
3) Javascript
4) Typescript
5) React js

You have to take care of the below note points

=> Dummy API
- https://fakestoreapi.com/

1) use this dummy API for listing product page

=> Listing - https://fakestoreapi.com/products
=> Pagination - https://fakestoreapi.com/products?limit=5

2) You have to create your own logic and you will not use any third-party library in your final review task, if you use any third party then we will not consider the task.
